

## Research regarding mandatory products in the scope of Chinese Compulsory Certification (CCC)

Report no.: N/A

---

**Customer:** Escha GmbH & Co. KG  
Elberfelder Str. 32  
58553 Halver

---

**Products and customs tariff  
codes** (according to customer)

1. Synthetic granules 32041700
2. Flux material 38109090
3. Chemical compounds, sealing compound, varnish, adhesive 38249098
4. Synthetic granules (normal material) 39095090
5. Silicone 39100000
6. Pipes and hoses composed of polyolefin 39173231
7. Packaging material 39231000
8. Plastic bags 39232100
9. Injection part composed of synthetic 39269097
10. Sealing gasket composed of rubber 40169300
11. Wooden boxes 44151010
12. Cardboard boxes 48192000
13. Labels self-adhesive 48219010
14. Sales catalogue 49111010
15. Metal parts 74153300
16. Dynamometric key 82060000
17. Injection molding tool 84807900
18. Tin solder, soldering wire 85159000
19. CD / DVD sales catalogue 85234045
20. Sensing device 85365019
21. Connectors 85366990
22. Electronic microassemblies 85389099
23. Electric cables with connector 85444290
24. Cables / bulk stock 85444995
25. Single loudspeaker with case 85182100
26. Illuminating diode (LED) 85312020

## Research regarding mandatory products in the scope of Chinese Compulsory Certification (CCC)

---

Following factors have been checked:

Comparison of the product names with the First Catalogue of Products Subject to Compulsory Certification (AQSIQ/CNCA) and subsequent announcements and comparison of the customs tariff codes with the current SAMR/General Administration of Customs P.R.C catalogue of customs tariff codes for products subject to compulsory certification – The official SAMR announcement No. 21 2020 and No. 34 2022.

### Result:

1.) The following products are not mentioned in the two catalogues:

1. Synthetic granules 32041700
2. Flux material 38109090
3. Chemical compounds, sealing compound, varnish, adhesive 38249098
4. Synthetic granules (normal material) 39095090
5. Silicone 39100000
6. Pipes and hoses composed of polyolefin 39173231
7. Packaging material 39231000
8. Plastic bags 39232100
10. Sealing gasket composed of rubber 40169300
11. Wooden boxes 44151010
12. Cardboard boxes 48192000
13. Labels self-adhesive 48219010
14. Sales catalogue 49111010
15. Metal parts 74153300
16. Dynamometric key 82060000
17. Injection molding tool 84807900
18. Tin solder, soldering wire 85159000
19. CD / DVD sales catalogue 85234045
22. Electronic microassemblies 85389099
26. Illuminating diode (LED) 85312020

2.) Following products and/or customs tariff codes are mentioned in the catalogues or announcements and are in the CCC scope under following conditions:

9. – in CCC scope if it is vehicle interior trimming material with a minimum size for 356 mm x 100 mm
20. Sensing device 85365019 -- in CCC scope when the input voltage is > 36V.
21. Connectors 85366990 -- in CCC scope when connected with power cord.
23. Electric cables with connector 85444290 – in CCC scope if cord sets (power cord + mains plug) or for railway vehicles
25. Single loudspeaker with case 85182100 -- in CCC scope when it is an active loudspeaker with an input voltage of > 36V and a power of < 500W.

3.) Following products are in CCC scope:

**Research regarding mandatory products in the scope of  
Chinese Compulsory Certification (CCC)**

---

24. Cables / bulk stock 85444995

**Remark:**

If assemblies or complete machines are shipped to China, most of their built-in components do not need to be considered regarding CCC certification. Mainly, the whole product which passes Chinese customs must be evaluated. In case of a spare parts shipment of products in CCC scope, the importer can apply for exemption permission if the parts are delivered directly to the end user for the purpose of maintenance. However, power cords and mains plugs do have to meet Chinese standards and must be CCC approved in any case.
