

Product overview

About us

ESCHA has stood for competence and quality in connectivity- and housing technology for more than 30 years. We develop and manufacture connectivity that stands up to the industrial requirements of automation as well as numerous other application areas.

Through our innovative strength and a highly in-depth production, we realize industry-related special solutions and custom-made products on a daily basis.

Our claim is, let our customer experience the extraordinary. Getting pleasure from service, innovation and technology are our roadmap to economic success; social responsibility and sustainable budgeting are our benchmark.

The ESCHA group

We develop and manufacture with approx. 900 employees worldwide. We guarantee high availability and consistent quality of our products worldwide through production capacities in Germany, Czech Republic and China as well as licensed production in USA and Mexico.

ESCHA connectivity- and housing technology is at your disposal worldwide via own sales companies and a network of sales partners.

Since June 2009, ESCHA has had the status of Authorized Economic Operator. This AEO-Certification provides us with customs-law simplifications and guarantees our customers high security standards within the entire international supply chain.

SPECIALIST IN CONNECTIVITY.

- **an entire standard-programme**
robust, with highest protection classes (IP67 | IP68 | IP69)
360° shielded, bus capable, drag chain- and robot suitable, oil-, chemicals resistant
- **for special requirements**
resistant to detergents, high-pressure- and steam-jet cleaning, and high temperatures, special data transmission features (10Gbit/s | Cat6A), reliable power transmission
- **custom-made solutions**
modified standard products for your application – quick, flexible and professional – individual product development beginning with the idea through design, tool-making up to series production
